SKILLS TECHNICAL

- Java
- Python
- C++
- C#
- HTML
- CSS
- Git
- Qiskit
- Unix
- Windows
- Excel
- PowerPoint
- Word

PERSONAL

- Problem Solving
- Planning
- Organisation
- Leadership
- Responsibility
- Positive work ethic
- Diligence
- Creativity

HOBBIES AND INTERESTS

- I am currently training to climb Mount Kilimanjaro to raise money for Teenage Cancer Trust.
- I am greatly interested in and motivated by coding and making video games and have created many projects from scratch.
- I love football, I support Nottingham Forest.
- I like going to the gym, keeping fit and working out.

I am a polite, confident and pro-active person looking to become a Software Engineer after I complete my Computer Science degree at Lancaster University. I am reliable, self-motivated, and good at taking responsibility to get the job done. I have a passion for programming and will do whatever it takes to get a working solution for any problem thrown at me.

EXPERIENCE

December 2025 – January 2026

INTERN *Ringmind*

- Worked as an intern for Bron Szersynski for a month, fixing bugs and adding functionality to Ringmind: a planetary ring simulator.
- Gained invaluable experience working on a project written by a number of different people.
- Improved my ability to read and understand other programmers' code, as I had to quickly familiarise myself with how the program flowed to be able to fix problems.
- Communicated with Bron frequently, meeting and discussing options in tackling certain bugs or implementing a new feature.

February 2025 - March 2025

TELEPHONE FUNDRAISER *Lancaster University*

- Telephone fundraiser in Lancaster University's annual telethon, fundraising for the Lancaster University Opportunity Fund.
- Part of a team of callers that raised over **£160,000** for students from weaker financial backgrounds, enabling them to attend higher education.
- Smashed the campaign's initial goal of **£100,000** by **£60,000** and became a part of Lancaster University's best ever fundraising team.
- Developed a strong understanding of the fund's priority projects, enabling passionate and informed discussions with potential donors.
- Recorded personalised thank you messages for donors, encouraging long-term support for the fund.

October 2022- September 2025

CREW MEMBER *KFC, Basingstoke*

- I gained experience in the working world through employment at KFC in the Malls shopping centre, where I improved my interpersonal skills and ability to remain composed in stressful situations in the workplace.
- Presented myself in a positive and professional manner when interacting with customers and colleagues.
- Drove team success by completing allocated tasks quickly and accurately.

August 2018 - June 2021

Academy footballer *Aldershot FC*, Aldershot

- In 2018 I was lucky enough to be scouted and invited to play for the Aldershot FC Academy.
 - This was a great opportunity, during which I learnt the importance of reliability, diligence, teamwork and a self-driven work ethic, and had the chance to play against top-league academies, such as Fulham and Watford.
 - After the first year I was made captain, which helped me to develop my leadership skills and lead a team of talented footballers while continuing to play at a high standard myself.
-

EDUCATION

2028 (In Progress)

MSci Hons Computer Science

LANCASTER UNIVERSITY, Lancaster

- Includes a first year minor in Mathematics
- Completed multiple individual and group projects

2024

A-Level

PETER SYMONDS COLLEGE, Winchester

- Computer Science A*
- Biology A*
- Mathematics A

2022

GCSE

Testbourne Community School, Whitchurch

- Computer Science- 9 Biology- 9 Chemistry- 9 Physics- 9 Mathematics- 9 English Language- 9 History- 9 English Literature- 8 French- 8 German- 7
